MINT SPRINGS *wedding.....*

*Mint Springs Farm captures the allure, charm, and legendary hospitality of the South. Our approach to each event is reflected in the exceptional service, and unique style of each event. We believe in stress-free, client-tailored events, thoughtful guest experience, and lasting memories. Those moments begin upon your arrival that morning until your last guest departs. This is our passion at Mint Springs Farm, the driving force of why we built our venue, and the commitment we have to all of our clients.*

*Mint Springs Farm was the first venue in the Nashville area designed and built to be an all day, full service venue. We created the concept of having a bridal suite and a groom's loft, a ceremony pavilion and a reception barn. All of this so our couples and their families could spend the day together enjoying the cherished moments before the celebration! Our passion and excellence is why we continue to receive the reviews and accolades that we do.*

## *Event Crew & Design Team*

*Our full time event crew and design team is just another part of the day that sometimes goes unrecognized. While our planners and their assistants are taking care of the details of the wedding day, our design team and crew are making sure that the ceremony, cocktail area and reception barn are arranged to perfection! Those last minute details such as pin spotting all of the floral, the cake and the couple, or making sure all of the place settings are straight and the glassware is polished. Those are just a few of the details we are so very picky about! This crew includes:*

- Two event crewmen, (three if wedding is 225 and up)
- Two design team crew
